PROJECTS

Weather App :- A dynamic web application that delivers real-time weather updates for searched cities or the user's current location, designed with a modern and responsive interface. Deployed on Vercel for seamless accessibility.

Technologies Used:

- **Frontend**: HTML, CSS, JavaScript
- **API Integration**: Third-party weather API
- **Deployment**: Vercel
- **Features**: Responsive UI, error handling, location-based search
- **Source Code**: Github (Try it here)

Whack-A-Mole Game :- An engaging and interactive web-based game featuring customizable difficulty levels, high-score tracking, and immersive sound effects. The game supports light and dark modes and is deployed on Netlify for quick and reliable access.

Technologies Used:

- **Frontend**: HTML, CSS, JavaScript
- **Storage**: LocalStorage for high scores
- **Design Features**: Responsive UI, light/dark mode
- **Deployment**: Netlify
- **Additional Features**: Sound effects, pause/resume functionality
- **Source Code**: Github (Try it here)

HOBBIES:

- **Playing Cricket**: Enjoy participating in cricket matches with friends and local community teams.
- **Watching Web Series**: Enthusiastic about exploring a variety of web series across different genres.

CERTIFICATIONS:

- **TCS iON Communication Course** - Tata Consultancy Services (TCS iON), March 2024.
- **Tailwind CSS Bootcamp Certification** - LetsUpgrade, March 2024.
